DESCRIPTION

Turn your computer into a 3D surround system with the Eminent EM3572 7.1 Sound Card! You can now fully experience your music and movies with this 8 channel sound card. The sound card is fitted with many in and output sockets to connect all kinds of audio devices and speakers.

Fitted with six 3.5mm audio sockets
With the EM3752 Sound Card, you can connect all common speaker sets and headsets. You can connect your headphones or 2.0, 2.1, 4.0, 4.1, 5.1 and 7.1 speaker set using the 3.5mm jack inputs: Front, Rear, Center and Subwoofer. You can also connect a microphone to the 3.5mm Microphone input and any audio device to the Line In input.

With two optical sockets
You are now able to connect optical audio devices using the two special optical sockets on the sound card. The PCI sound card is fitted with one SPDIF input socket and one SPDIF output socket.

Connect internal audio devices
The EM3752 is fitted with one Aux In input socket and one CD In input socket. This allows you to play or record a Bluray, DVD, CD or any other internal audio device on your computer.

Easy to install
Installing the card with a common C-Media chipset is easy. Turn your computer off, add the PCI sound card to an empty PCI slot and reboot your computer. Windows Vista and Windows 7 will install the driver automatically. Use the easy to use Installation Wizard on the CD-rom to install the drivers when you have Windows 2000 or XP.

Accessories
Next to the Eminent EM3752 PCI Sound Card 7.1, the giftbox contains a CD-rom with easy installation wizard to install drivers on your computer. And you will have one TOSLINK cable to connect an optical device to your computer.

BOX CONTENTS

- 7.1 PCI Sound card
- CD-rom with wizard and drivers
- Manual
- Toslink/optical cable.
